FOP SRH1 USB Folder Structure

When manually downloading data using a PC onto media such as a USB drive, use the following folder/directory structure that matches with BOP, creating directories for flight number and stream name. Directory names are **case-sensitive**.

Example (for flight F01):

F01/CMG	# CMG gravity data
F01/JKB22	# Topcon NetG3a
F01/JKB32	# Topcon NetG3a
F01/JKB42	# Topcon NetG3a
F01/JVD	# Javad
F01/note	# Files to go to note
F01/note/radscope	# Oscilloscope trace files to note
F01/SOB	# Science observer photo/video
