

Daily Progress Report (page 1 of 1)

Project: UT GoM² Marine Test
Vessel: Q4000
Client: University of Texas
Date: Wed 24th May 2017
DPR No.: # G26

General: On Site GC-955 at UT-GOM2-1-H005 - Final Demob operations

Demob Operations:

BHA recovered on drill floor, clean and stored in basket for backloading

All Geotek personnel disembark by helicopter to Houma where they relocated to Port Fourchon to begin core processing operations at InterMoor once the supply vessel arrives.

Visit to InterMoor confirmed that all arrangements were in order and that both NOV and InterMoor were ready for the arrival and unloading of Geotek equipment from the supply boat tomorrow.
